GLOSSARY

[View Full Glossary](#)

- **First Owner**
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.
- **Lease**
When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.
- **Ownership History**
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
- **Title Issued**
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

New Car Test Drive Review

NewCarTestDrive.com

Category:

Summary:

Review:

Extensive upgrades improve a true sports sedan.
By Tom Lankard, NewCarTestDrive.com

The 2007 Infiniti G35 is Nissan's entry in the highly competitive sports sedan class. And it's definitely competitive, with its slick styling, comfortable interior, power and handling on par with any of its peers. For people wanting a sports sedan that's as accommodating of its passengers as it is rewarding for its driver, the new G35 is hard to beat.

NewCarTestDrive.com correspondent Tom Lankard filed this report from Lenox, Massachusetts.

Overview:

The Infiniti G35 sedan has been remade for 2007. The body of the four-door sedan is updated, giving it a tauter, more buff look but without forfeiting its signature styling cues. Inside, there's a richer, warmer look and feel, with performance-oriented enhancements that add to the driving experience.

The 2007 Infiniti G35 uses rear-wheel drive, a necessity for true sporty handling. But there's also an all-wheel-drive model, the G35x, that gives up none of the handling but adds capability in rainy climes and where winters bring snow. The V6 engine on the 2007 models is more powerful and more efficient than before even though it's the same size. A five-speed automatic transmission with manual mode remains standard across the line. However, the Sport model kicks it up a notch, offering a choice between a six-speed manual gearbox or an automatic with Formula 1 style magnesium paddle shifters on the steering column.

G35 buyers choose from four versions: a nicely equipped entry-level model with leather trim and automatic climate control; the Journey model with dual-zone air conditioning, a navigation system, a premium audio system, and a self-adjusting cruise control; the G35x with all-wheel drive; and a revised Sport model with upgraded front seats, active four-wheel steering with variable ratio power steering and a firmer suspension that turns the G35 into a serious sports sedan.

The substantially reworked 2007 engine invites a heavy right foot, delivering its added power smoothly and strongly right up to the borderline motorcycle-level, 7500-rpm red line. The icing on this cake is that estimated fuel economy for the 2007 model is up over the '06, by 1 mile per gallon, at least for those who can resist the implicit urge.

Infiniti didn't forget the people just along for the ride. The base sound system is competitive with that in any luxury sedan. But committed audiophiles will find the top-level, Studio On Wheels system from Bose delivers a richer, fuller, more intricate and crisper sound than many mega-buck home stereos.

When Infiniti first arrived in the U.S., many saw it as Japan's counterpart to Jaguar, much like Lexus was perceived as Japan's answer to Mercedes-Benz. That's changed, at least the part about Infiniti. Clearly, Infiniti has now set its sights on BMW, long touted as the ultimate driving machine. The 2007 G35 sedan is loosening BMW's grip on that crown.

Unlike the sedan, the 2007 G35 coupe carries over unchanged from 2006. It will be redesigned and introduced as a new model for 2008.
